

## 2nd EAI International Conference on Sustainable Energy for Smart Cities

December 2 - 4, 2020 | ~~Viana do Castelo, Portugal~~ Cyberspace

Submission Deadline: **July 23, 2020 (extended)**

EAI is proud to announce that SESC is going **virtual and beyond borders**.

Get the same **full publication and indexing**, enjoy EAI's **fair evaluation and recognition**, present your paper to a **global audience**, and experience **virtual meetings live** as well as **on-demand** from the safety and comfort of your **home**.

SESC 2020 will take place online due to safety concerns and travel restrictions caused by COVID-19. Although we will miss having everyone meet and connect in person, we feel strongly that knowledge exchange must continue, if not more so. That is why we have equipped our online conferences with **live viewing with chat, virtual Q&A**, and a multitude of other measures to provide you with a great experience. All of this while making the registration for co-authors and non-authors **completely free** to give you the biggest possible audience. You can learn more about EAI's online conferences [here](#).

### SCOPE

Nowadays, cities are responsible for consuming about 75% of primary energy and for emitting more than 50% of the world's total greenhouse gases. As a contribution to diminish the impact of climate change, while preserving the importance of social prosperity, the broad theme of **Sustainable Energy** is fundamental for ensuring stability between economic growth and environmental sustainability. Consequently, new technologies are emerging, especially for the successful operation of future **Smart Cities**.

We are pleased to invite you to submit your paper to [SESC 2020](#). Submissions should be in English, following the Springer formatting guidelines (see [Submission](#)).
